1. This is a **MAIL AUCTION SALE**.
2. Lots will be sold on the date indicated. Send **LATE BIDS** by airmail.

9. **AUCTION SALES ARE STRICTLY FOR CASH FUNDS.** Payment must be made immediately upon receipt of material or upon notification. We reserve the right to demand payment before delivery, or to forward lots C.O.D. Accounts unpaid after thirty days will have a service credit charge of 1½% added to the balance each month.

12. We acknowledge the possibility of errors or typographical mistakes, and any errors on our part will be corrected. Please be careful in placing your bids and keep a copy of them. We cannot be responsible for your errors. There will be absolutely no returns without written permission from the Cataloguer.

The first group in the Honduras article: Coinage of 1871, not 1874.

FELLOW NUMISMATISTS:-

Welcome to our 59th Mail Auction Sale and Numismatic Commentary. We offer herein a wide variety of coins, paper money, medals, orders and decorations, and numismatic books. We hope you will find something to your numismatic tastes wherever they may lie.

The corpus of numismatic literature expands daily. Acquisition of still more book shelves to house our library has become a recurring problem here at Henry Christensen Inc. Several recent second editions which show marked improvement over their predecessors are worthy of mention. These include:

BASSO:-COINS, MEDALS AND TOKENS OF THE PHILIPPINES 1728-1974

STOHR:-VENEZUELA-CATALOGO DE MONEDAS, ENSAYOS, FISCHAS, Y RESELLOS

GAYTAN/NAVARRO:-The second edition of the translation of PAPER CURRENCY OF MEXICO

SEPPA:-PAPER MONEY OF BRASIL

If you collect any of these series, these volumes belong in your library. Please note that Seppa's Brazilian Paper Money Collection, used to illustrate the catalog, is offered in this auction sale.

Still another volume sits on each of our desks at this moment, as it often does. It is the 1976 edition of the **STANDARD CATALOG OF WORLD COINS**, the mammoth Krause telephone book compiled by our friends in Iola, Wisconsin. There is a tremendous amount of information in this tome, and few numismatists are strong enough to tear it in half, nor will we attempt to do so. Some of the listings do need honing, but this will be done. The book does lie flat nicely - no small boon to someone who spends hours daily cataloguing coins. But the arrangement of some of the listings drives us up the wall. The policy of listing former issuing authorities under their present day names seems to us ill chosen. The issues of Ceylon are under Sri Lanka, those of Cambodia under Khrmer, and both German East Africa and Zanzibar are listed under T for Tanzania. To find the coins of the Archbishopric of Olmutz one must look under Czechoslovakia. The coins of French Indochina are under F, but those of French Cochinchina are listed under V for Vietnam. The listing of the issues of Cattaro, Croatia, Montenegro, Serbia, and Zara under Yugoslavia does reflect the latter republic's ethnic hedge-podge, but it does not favors for the person attempting to use the book.

Further extensions of this policy could be both amusing and confusing and ridiculous. Would the native rupees of Bengal be listed under Bangladesh? If Guatemala occupies Belize, will the issues of British Honduras be listed under G? It's as bad as the opposite system - that of listing all current entities under former names, for example Iraq under M for Mesopotamia.

Collectors of ancient Greek coins are used to Eckhel's geographic system, the use of which was confirmed by Head, but most numismatists are more accustomed to the alphabetical listing with occasional exceptions for the obvious enclave listed under its sovereign state.

We do feel that in this instance historicity should be sacrificed in favor of increased utility, and we would urge collectors to let the publisher know their views.

Work proceeds apace on future sales. Sitting in our vaults at the moment are a nice collection of colonial and republican coins of Columbia, a choice collection of Pillar Dollars and eight escudos pieces, and a large collection of Goetz medals, among other items.

We will have another issue of Numismatic Commentary and Mail Auction Sale in the early fall. Following that we will once again conduct a Public and Mail Auction Sale in conjunction with the New York International Numismatic Convention in December.

In addition, we are pleased to announce that, together with our distinguished colleagues, the Calicós of Barcelona, we will be conducting the Auction at the C.O.I.N. in Los Angeles in June of 1977. It's not too soon to start thinking of a few choice rarities in your holdings which you may want to consign to that or one of our other auctions. We have over the years established a receptive clientele for many fields of numismatic material. If you feel the time has come to part with your treasures, we would be happy to discuss their disposition with you.

ALL THE BEST

HONDURAN MINTAGE FIGURES

For many years collectors of Honduran coins have been hampered by a lack of official records. Zelaya's 1958 monograph cites some figures but is far from convincing. Recently, the Banco Central de Honduras planned to issue a sesquicentennial monetary history of the country. The project took longer than expected, and the catalog was not issued until 1974, just in time for the 153rd anniversary of independence. The work is entitled HISTORIA DE LA MONEDA DE HONDURAS, and it is written by Sr. Arturo Castillo Flores. As the volume is a documentary history rather than a commercial "coin catalog" readers without a reasonable command of Spanish may have some trouble extracting the extremely useful information contained therein. We will, therefore, be drawing from this fine work from time to time in the future in an effort to make some of the data contained therein more accessible to English speaking numismatists.

For starters we have extracted the following fragmentary mintage figures based upon official documents. The majority have not previously been published, and some others disagree with previously cited numbers. It can be seen why some of these poorly struck little pieces show up so infrequently. They just didn't strike very many of them!

Obviously, these figures are incomplete and must be used with some caution. Certain of the denominations listed are not presently known to exist for years in which they apparently were coined. It is possible that such pieces will turn up in the future. In some cases it is likely that the pieces struck in those years bore different dates. But, these are the official Honduran government figures and should be considered the necessary first step in comparison to figures from other sources.

THE JAMAICA COUNTERMARKED PISTOLE OF 1759

Recent cataloguers have traced only a single specimen of the Jamaican floriate GR countermark of 1758-1759 applied to a Spanish American gold 2 Escudos piece. That well known example is, of course, the Byrne/Rudman specimen which is illustrated in Pridmore - a Popayan 1758 Assayer J.

We are pleased, therefore, to be able to bring to your attention a second example of this rarity, but this piece is dated the following year. The coin is a standard Popayan issue of Ferdinand VI which has seen considerable wear. The countermarks, also somewhat worn, conform exactly to those of the Byrne/Rudman piece (Pridmore 2).

**Popayan 2 Escudos 1759 J of Ferdinand VI
countermarked for Jamaica with floriate GR on each face.**

22.80 mm; 6.65 grams.

For the record, a third piece is mentioned by Lopez Chavez. On page 117 of his 2 Escudos catalog he mentions a Nuevo Reino 1757 J two escudos with GR countermarks which appeared in the Lonja de Almidón auction catalog of March 30, 1936 in Madrid. This piece has not been traced.
